The Department of Naval Architecture and Ocean Engineering at the United States Naval Academy invites applications for a full-time, tenure-track position in ocean engineering. The Ocean Engineering Program is ABET-accredited and offers an undergraduate curriculum with specialty tracks in civil and environmental aspects of ocean engineering and in deep-ocean technology. We seek candidates who can contribute to teaching and research in the following areas: environmental engineering, ocean energy conversion, oceanographic engineering & instrumentation, wave mechanics, ocean engineering design, or port and harbor engineering. Of special interest are qualifications that could support expansion of our marine environmental engineering curriculum. Applicants must have an earned doctoral degree in ocean engineering, or in a closely-related discipline, such as civil engineering, mechanical engineering, environmental engineering, or naval architecture with a demonstrated emphasis on ocean engineering. Preference will be given for appointment at the Assistant Professor level; however, exceptionally well-qualified candidates with significant experience will be considered for appointment at the Associate Professor level. Candidates will be expected to teach at the undergraduate level and to establish a program of research and scholarship, making use of the Academy’s world-class ocean engineering laboratories, which include two wave/towing tanks and a coastal engineering basin. As an institution dedicated to educating future naval officers, the Naval Academy seeks candidates who will be outstanding teachers and role-models for Midshipmen. The proposed starting date is August 1, 2015. Application review will begin on January 15, 2015 and continue until the position is filled. Applicants should submit a detailed C.V., a statement of their teaching and research interests, and names and addresses of three references to OEFacultySearch2015@usna.edu. For additional information on the Ocean Engineering Program, see our web page at http://www.usna.edu/NAOE/. Further details regarding the position can also be found at https://www.usna.edu/HRO/jobinfo/NAOE%20-%202014.php. The U.S. Naval Academy is an Equal Opportunity Employer.
