Position Title
Assistant Professor (2 positions)

Hiring Unit
Mechanical and Industrial Engineering

Job Description/Responsibilities
The department of Mechanical and Industrial Engineering has experienced consistent and sustained growth over the past few years. In response to recent growth, two tenure-track faculty positions have been created. SIUE is a strong advocate of the teacher-scholar model, and therefore, the successful candidates are expected to teach undergraduate and graduate courses in Mechanical Engineering, publish scholarly work, supervise graduate students, and participate in service activities. The successful candidates are expected to establish and sustain externally funded research programs. The ideal candidate for the first position will have a primary research focus on MEMS, Microsystems, or biosystems. The ideal candidate for the second position will have a primary research focus on dynamic systems, vibrations, controls, and mechatronics. Candidates with background and interest in bio- and health-related systems and experiential learning are especially encouraged to apply. The appointments are expected to be at the assistant professor level. However, other research areas or appointment at a higher rank may also be considered for candidates with exceptional qualifications.

Minimum Qualifications
The candidate should have a doctoral degree in Mechanical Engineering or related field.

Terms of Appointment
Full-time, tenure track, nine-month, academic year appointment beginning August 2015.
