The Department of Mechanical Engineering at Cleveland State University invites applications for a full-time visiting professor in the areas of thermal/fluids and energy systems. The position begins in August 2015 and ends in May 2016, with the possibility of renewal for one additional year. At a minimum, applicants should possess a doctoral degree in Mechanical Engineering or a closely-related field and have prior teaching experience in higher education. Special considerations will be given to candidates with documented teaching proficiency in thermal/fluid or energy areas, practical laboratory experience and research experience in those fields.

The successful candidate must have a strong commitment to teaching excellence, which includes the supervision of multidisciplinary senior design projects. Contributions to curriculum and laboratory development are also expected.

For full consideration, candidates must submit a cover letter, curriculum vitae (including names of at least three professional references), and a statement of interests in teaching through the Human Resources website:
