The Department of Mechanical Engineering at the University of British Columbia seeks outstanding individuals for tenure-track positions at the Assistant Professor level in the broad area of Applied Mechanics. Areas of particular interest include, but are not limited to, solid mechanics and vibrations. The starting date will be July 2016, or as soon as possible thereafter.

An ideal candidate will complement our existing strengths and develop an internationally recognized, externally funded research program. Applicants must have either demonstrated or possess a clear potential and interest in achieving excellence in teaching, and provide service to the University and community. Industrial experience is an asset. The successful candidate(s) will hold a Ph.D. degree or equivalent in Mechanical Engineering or a closely related field and will be expected to register as a Professional Engineer in British Columbia.

Further information on the department is available at www.mech.ubc.ca, and information on the employment environment in the Faculty of Applied Science is available at www.apsc.ubc.ca/careers.

The University of British Columbia hires on the basis of merit and is committed to employment equity. All qualified persons are encouraged to apply. We especially welcome applications from members of visible minority groups, women, Aboriginal persons, persons with disabilities, persons of minority sexual orientations and gender identities, and others with the skills and knowledge to engage productively with diverse communities. Canadians and permanent residents of Canada will be given priority.

Applicants should submit a curriculum vitae, a statement (1-2 pages) of technical and teaching interests and accomplishments, and names and addresses (fax/e-mail included) of four referees. Applications should be submitted online at http://www.hr.ubc.ca/careers-postings/faculty.php.

The closing date for applications is November 1, 2015. Please do not forward applications by e-mail.
