The Aerospace and Mechanical Engineering Department at the University of Notre Dame in South Bend, Indiana invites applications for tenure-track faculty positions in aerospace and mechanical engineering. All areas of aerospace and mechanical engineering will be considered but applicants that complement existing strength in flow physics and control, computational science, robotics, and materials are especially encouraged to apply.

The search is aimed at the assistant professor level, but exceptional candidates at all levels will be considered. Successful candidates will have demonstrated the potential to achieve an internationally distinguished record of scholarship, a commitment to undergraduate and graduate education, and a dedication to service within both her/his research community and the university. The candidates are expected to develop strong, externally funded research programs. All applicants must have an earned doctorate in an appropriate discipline.

The University of Notre Dame is a national research university that offers a unique opportunity for professional growth in an environment that values scholarship, education and community. Current research at Notre Dame has a strong emphasis on interdisciplinary engineering and science that bridges traditional groups and departmental boundaries. Notre Dame is dedicated to becoming a leading research university and is investing millions of dollars in state-of-the-art facilities. The University of Notre Dame is located in South Bend, IN. The city of South Bend and surrounding counties have a vibrant and diverse economy, excellent school systems, and close proximity to Chicago and Lake Michigan.

Further information about the University and the Department can be found at: http://www.nd.edu/~ame/ . Interested persons should submit electronically a curriculum vitae and statements of 1) research program plans and 2) teaching interests to http://apply.interfolio.com/31063 . For full consideration, applications should be received by January 15, 2016.

The University of Notre Dame seeks to attract, develop, and retain the highest quality faculty, staff and administration. The University is an Equal Opportunity Employer, and is committed to building a culturally diverse workplace. We strongly encourage applications from female and minority candidates and those candidates attracted to a university with a Catholic identity. Moreover, Notre Dame prohibits discrimination against veterans or disabled qualified individuals, and requires affirmative action by covered contractors to employ and advance veterans and qualified individuals with disabilities in compliance with 41 CFR 60-741.5(a) and 41 CFR 60-300.5(a).
