Tenure-Track Assistant Professor in Mechanical Engineering

The Engineering Department of Trinity College invites applications to fill a tenure-track position in Mechanical Engineering at the Assistant Professor level beginning Fall 2016. Trinity College, located in Hartford Connecticut, is a selective liberal arts institution with an enrollment of approximately 2300 undergraduates. The successful candidate will teach undergraduate courses in mechanical engineering in an engineering program accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org.

Candidates must have an earned doctorate in Mechanical Engineering, or a closely related field, with an active research plan. Scholarly work in structural analysis, biomechanics, micro- and nano-mechanics, mechatronics, robotics, or MEMS is particularly welcome. An active research program is strongly supported and expected. Collaboration with other faculty and undergraduate students is highly encouraged.

Applicants should submit a letter of application, a curriculum vitae, a statement of research plans and teaching interests, and names and contact information for at least three references to https://trincoll.peopleadmin.com/. Applications will be reviewed starting December 15, 2015 and will be accepted until the position is filled. Women and minority candidates are strongly encouraged to apply. Trinity College is an Equal Opportunity/Affirmative Action employer.
